runit versions - Chef Supermarket <p>Installs runit and provides runit_service resource</p> <h1 id="runit-cookbook-changelog">runit Cookbook CHANGELOG</h1> <p>This file is used to list changes made in. GitHub - chef-cookbooks/runit: Development repository for ... runit Cookbook. Installs runit and provides the runit_service service resource for managing processes (services) under runit. This cookbook does not use runit to replace system init, nor are there plans to do so. runit Cookbook - Chef Supermarket runit Cookbook - Chef Supermarket.

GitHub - cookbooks/runit: A Chef cookbook for runit Description. Installs runit and provides runit_service definition for managing new services under runit. This cookbook does not use runit to replace system init, nor are there plans to do so. Chef Client Cookbook - devhub.io The runit cookbook can be used with this cookbook but it is not explicitly required. The default settings in this cookbook do not require its use. The default settings in this cookbook do not require its use. [chef] Re: Re: CHEF-154 and upcoming change to runit cookbook This is an exemplary change notice. Is there a Cookbook convention yet for distributing notices like these with a cookbook? If not, I'd nominate this notice and the runit cookbook as candidates.

chef - [chef] Re: runit cookbook behaviour - lists.opscode.com I've tested the latest runit cookbook on my debian installation and found out that it just fails in the moment of init.d script creation. I am already aware of COOK-2322, that corresponds to this problem. chef - Packer docker build exits code 137 when running ... I'm trying to use Packer to build a docker image of the webapp I'm working on. Whenever I run packer build, when it gets to the step that it runs the runit recipe, I would get Build 'docker' errored:.
